

Dead Lights

*"Pitch black Gothic industrial electro.
Like Nitzer Ebb jamming with The
Prodigy at a graveyard fetish party!"*

Artist: **DEAD LIGHTS**
Title: **Dead Lights**
Format: CD / 2LP / Digital download
Label: Cold Transmission Music
Distribution: Audioglobe
Release date: 14 May 2021

After their two well-received debut EPs in 2020 ('Death Pop' and 'Hex'), the enigmatic duo now presents their highly anticipated debut album.

'Dead Lights' showcases the duo's visceral and sleazy hybrid of hard hitting dance beats, monumental synth bass lines and catchy vocals in 9 brand new songs.

Far away from the creative wasteland of retro synthpop, or the machismo of metal-infused industrial, the androgynous duo creates raw art that disrupts gender and genre, offering high energy, dark electronic songs with killer grooves that cross the borders between dancefloor TDM and electropop.

Imagine the gritty sounds of Gesaffelstein or Schwefelgelb on one hand, and the dance vibe of The Chemical Brothers and The Prodigy on the other. Locked together in energetic, dark, industrial electropop songs destined to fill dancefloors in a dystopian world.

BIOGRAPHY

Dead Lights was founded a year ago at the start of the Covid-19 pandemic, forcing the international duo to work on all their output from a distance. Since the start of Dead Lights, Saul and Richard have never met in person, yet managed to write and produce 15 tracks, release 2 EP's, create 3 videos as well as all the artwork and band photos.
